Effective 1 May 2018

Requirements

Deutsche Pfandbriefbank AG ("pbb") is obliged to provide an overview to its clients indicating the most important execution venues where it executes client orders. Accordingly, and on an annual basis, pbb will publish the five most important execution venues for each class of financial instruments on its website (the "Top 5 Report").

According to pbb's business policy for OTC derivatives, the execution venue for swaps, futures/forwards, and other currency and interest rate derivatives for pbb's clients is solely pbb. pbb assures its clients that this is by no means a restriction for achieving best execution on their behalf. pbb reviews its principles for the execution of client orders (the "Execution Policy") regularly, at least once a year. Moreover, pbb will review and

adjust its Execution Policy whenever material changes occur that give rise to the possibility that the execution of client orders is no longer possible in a consistent manner, and in line with clients' best interests, at a given execution venue.

pbb and its employees are committed to complying with ethical principles and obligations in order to identify potential conflicts of interest, and to avoid these when executing client orders. Furthermore, the ethical and legal framework as well as the mandatory requirements applicable for all employees of Deutsche Pfandbriefbank AG are available on pbb's website:
