*All property types. Based on independent reports of properties and portfolios over € 5 million (over \$ 2.5 mn for US), USD to EUR = end years fx rates Source: Real Capital Analytics (RCA) ** Source: Property Market Analysis (PMA) as of March 2021

- European and US CRE investment volumes decreased due to COVID-19
 - US figures were down by 32% while Europe saw a decline by 27% in 2020
 - Preliminary figures for Q1 suggest also a weak start into 2021
- Europe:
 - Decreasing market values so far focussed on **retail and hotel** sectors
 - **Office** yields continue to compress over the short to medium term but on the back of relatively low volumes
 - **UK office** yields are expected to be stable while stabilising **retail** yields cannot be expected before 2022
 - **Logistic and residential** assets are stable so far or see even increasing prices
- Germany:
 - **Office** prime yields are expected to see a continued but very modest inward yield shift driven by continued low interest rates despite an increase in vacancy
 - Deals activity and investor sentiment focus on **logistics, residential** and food-based and big box **retail** assets
 - Yields will increase, most notably for **shopping centres**
- USA:
 - Overall still commercial property price growth in 2020
 - Weaker trends for the **office** and **retail** sectors, counteracted by strength in the **industrial** and **apartment** sectors
 - Yields for **office** properties are expected to increase

COVID-19 Challenges

Successful management of COVID-19 challenges by focusing on selective business and strong risk monitoring

Fundamental Challenges

- **Economy and subsequently Real Estate sector affected** by COVID-19 driven hygiene/social distancing standards as well as government measures (e.g. lockdowns, curfews) to fight the pandemic, esp. **Retail and Hotel**

 - Expiring state support measures
 - Delayed effects on labor markets, insolvencies and rental market
 - Expiring agreements with customers (e.g. change in covenants, postponements of amortization)
- **Structural challenges** as a result of the COVID-19 impact
 - Space requirement / home office
 - Online shopping
 - Change in behavior in private and business travelling

 - Client requests **widely spread by regions** (incl. Germany, UK, France, US, Poland) and mostly focusing on certain **property types** (incl. Retail ~44%, Hotel ~20%, Office ~17%)
- In addition, **forward-looking monitoring** of selected sub-portfolios with regard to potential future structural challenges

Key drivers Q1/21

REF

- Financial **segment performance** benefitted from increased NII and lower risk provisioning y-o-y
- **NII** up y-o-y – supported by lower refinancing costs incl. TLTRO and floor income
- **Risk provisioning** down y-o-y – small additions in stage 1&2 due to individual deteriorations of PDs and high new business and in stage 3 for revaluations of already provisioned UK shopping centres
- **GAE** up y-o-y, including higher personnel costs
- **Financing volume** up y-o-y

PIF

- Financial **segment performance** supported by allocation effects
- **P&L figures** stable y-o-y, in line with expectation
- **Financing volume** down due to maturities

Value Portfolio

- Financial **segment performance** supported by allocation effects
- Last year, financial **segment performance** was mainly affected by credit spread driven **valuation** effects related to COVID-19 pandemic
- **Financing volume** further down in line with strategy due to maturities
